Why Showers?

A shower goes beyond having the chance to get clean. It provides a sense of dignity and the confidence in the face life's daily challenges. Without the ability to get clean, how can anyone successfully pursue relationships, employment, or even permanent housing?

According to a Council on Homelessness 2014 report, there are over 1,400 homeless in Volusia County. And while there are programs for homeless meals, food, and other services, the ability to find a shower is not easy.

Gods BathHouse of Volusia County is a non-profit, non-partisan enterprise. Our mission is to provide a safe, secure environment for needy individuals to maintain good hygiene, promote basic clothing needs, help them remain healthy, and implement the Gospel of Jesus Christ by working with economically disadvantaged individuals. <http://gods bathhouse.org/>
