In this program Dr. Brandt will share with us a journey that begins in La Mezquita, the Great Mosque of Córdoba, and proceeds to Granada, where we visit the renowned Alhambra. Then we travel to Sevilla for a tour of the Royal Alcázar and a special holiday encounter at the Palacio Algaba. Before returning home to Florida, we enjoy an archaeological excursion to the 10th-century “City of Flowers” near Córdoba, where Dr. Brandt embarked upon her journey of the heart.

Dr. Brandt, a retired college professor of French, comes from a life filled with art, music, literature, spiritual quest, and worldwide travel. Among many joys of her retirement life have been the opportunity to study Islamic art and culture in museums and heritage sites around the world.
